

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

HISTORICAL CATALOGUE
OF THE STUDENTS OF
Kalamazoo College

AND OF
Kalamazoo Theological Seminary

1851-1902

1903
IHLING BROS. & EVERARD, PUBLISHERS
KALAMAZOO, MICH.

24

PREFACE

The preparation of this catalogue was undertaken at the request of the Alumni of the College, as expressed in their vote of June 18, 1901. It contains the names of those students who, since the organization of the institution, entered upon either of the courses of study which are in advance of the preparatory courses. It thus contains the names of all graduates from 1851 to 1902 inclusive, and the names of non-graduates, not including, however, the names of such as matriculated later than 1898.

The body of the work consists of two parts. The first contains the names of those who completed the Theological course, which was the first to be organized, of those who completed the course leading to the usual college degrees, and of those who received diplomas on the completion of the course for women. This last course covered four years of collegiate study, and was considered equivalent to the course for men. A very few of those who completed the course for women, were afterwards granted regular college degrees. The separate organization of the women's department ceased with the year 1870. .

The second part contains the names of those who entered either of the three courses just mentioned, but did not complete it. It also contains the names of those who received collegiate degrees at other institutions, and afterwards pursued studies in Kalamazoo College.

It is hoped that the perusal of these records will serve to revive the pleasant memories of the past, and to extend the acquaintance of the Alumni with each other, and in this way to further the interests of the institution.

Kalamazoo, Jan., 1903.

Handwritten text on a pink rectangular piece of paper, which is placed on a larger, aged, yellowish-tan sheet. The handwriting is in cursive and appears to be a letter or a note. The text is mostly illegible due to fading and the angle of the paper. Some words are difficult to decipher, but they seem to be arranged in several lines. The pink paper is slightly wrinkled and has some darker spots, possibly from ink or age.

Corrections, changes of address, or items of information needed to complete the record of any student, will be gladly received, and may be addressed to the Secretary of the Alumni,

MRS. F. SHILLITO,

303 W. Vine St.,

Kalamazoo, Mich.
